

POLYFLEX NP

FEATURES

POLYFLEX NP is a standard convoluted tubing designed for wire harness protection. It is suited for harsh environments to protect against any mechanical risks such as abrasion or compression. This tube can be delivered slit or non-slit. Assembly tools are available for an easier installation. POLYFLEX NP is compatible with POLYFLEX Accessories for any routing or fixation need.

CHARACTERISTICS

- **Product family:** Standard Convoluted Tubing
- **Construction:** slit or non-slit
- **Materials:** polypropylene, polyamide
- **Standard colors:** black, gray, orange (depending on material grade)
- **Temperature of use:** up to -40/150°C
- **Typical applications:**
 - Switch cabinets
 - Electrical industry
 - Ship & train building...
